RESPONSE TO NRC BULLETIN 96-04:
CHEMICAL, GALVANIC, OR OTHER REACTIONS IN SPENT FUEL
STORAGE AND TRANSPORTATION CASKS

Gentlemen:

South Carolina Electric & Gas submits the following information pursuant to the NRC's request.

Upon review of the information in the NRC bulletin 96-04, SCE&G has concluded that this issue is not applicable to V. C. Summer Nuclear Station because we do not meet the definition of "action addressee" in the bulletin. SCE&G does not possess independent spent fuel storage installations, nor are we a vendor of spent fuel storage or transportation casks. Although V. C. Summer Nuclear Station has used transportation casks in the past, SCE&G is not a holder on a certificate of compliance for the casks; instead, the vendor, NAC International, retains the certificate of compliance. Therefore, no action is required concerning this bulletin.

I declare that the statements and matters set forth herein are true and correct to the best of my knowledge, information, and belief.

Should you have any questions, please call George Lippard at (803) 345-4810 or Linda Martin at (803) 345-4217.

Sincerely,

Gary J. Taylor
