Docket No. 50-266
Docket No. 50-301

Wisconsin Electric Power Company
ATTN: Mr. R. E. Link
Vice President
Nuclear Power
231 West Michigan Street - P379
Milwaukee, WI 53201

Dear Mr. Link:

SUBJECT: ROUTINE RADIATION PROTECTION INSPECTION AT POINT BEACH NUCLEAR PLANT

This refers to the routine safety inspection conducted by Mr. T. J. Kozak of this office on October 26-30, 1992. The inspection included a review of authorized activities for your Point Beach Nuclear Plant. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of a selective examination of procedures and representative records, interviews with personnel, and observation of activities in progress.

Based on the results of this inspection, certain of your activities appeared to be in violation of NRC requirements, as specified in the enclosed Notice of Violation (Notice). The violation is of concern because contaminated material was located outside of the controlled area without identification for an extended period of time.

Although 10 CFR 2.201 requires you to submit to this office, within 20 days of your receipt of this Notice, a written statement of explanation, we note that this violation has been corrected and those actions were reviewed during this inspection. Therefore, no response with respect to this matter is required.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosed inspection report will be placed in the NRC Public Document Room.
