Mr. Peter Wootton
Tumor Institute of the
Swedish Hospital
1211 Marion Street
Seattle 4, Washington

Subject: REQUEST FOR INFORMATION

Dear Mr. Wootton:

We are referring your letter of January 18 to Mr. Lyall Johnson, Chief, Licensing Branch, Division of Civilian Application, U. S. Atomic Energy Commission, Washington, D. C. He will send you information regarding the availability of spent fuel elements.

High radiation sources composed of Cobalt 60, Cesium 137, or other byproduct materials are licensed by the Isotopes Extension, Oak Ridge. If you are interested in obtaining byproduct material sources we refer you to the enclosed list of suppliers of byproduct materials who will be happy to provide you with information concerning prices, availability, etc.

If you have any further questions, please do not hesitate to contact us.

Very truly yours,

for James W. Hitch, Assistant Chief
Byproduct Licensing Branch
Isotopes Extension
Division of Civilian Application
