President and Chief Executive Officer
P.O. Box 411
Burlington, Kansas 66839

Gentlemen:

We have received your letter dated October 29, 1992, which transmitted Revision 34 to the Wolf Creek Generating Station Radiological Emergency Response Plan. The plan revision was submitted pursuant to 10 CFR 50.54(q) and involved changes to your Emergency Action Levels (EALs). The changes were initiated as part of your proposed corrective action for Emergency Preparedness Weakness 482/9213-01 in order to clarify initiating conditions for containment integrity breach.

These changes were discussed during telephone conversations between our Dr. Blair Spitzberg and your Messrs. Ken Craighead and Mark Schrieber on November 6 and 13, 1992. The discussions concerned the new EAL introduced on page 3 of Table 2.2-2 of this revision pertaining to a steam generator tube rupture with indication of release to the environment. As a result of our discussion, we understand that you will review this EAL and clarify it as necessary. Upon receipt of your post-review submittal, we will continue our review of this revision.

Should you have any questions concerning this letter, please contact Dr. D. Blair Spitzberg at (817) 860-8191.

Sincerely,

A handwritten signature in dark ink, appearing to read "A. Bill Beach".

A. Bill Beach, Director
Division of Reactor Projects
