November 20, 1975

Mr. Richard B. Chitwood, Chief
Fuel Cycle Environmental Projects Branch
Division of Materials and Fuel Cycle
Facility Licensing
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Dear Mr. Chitwood:

This is with further reference to your letters of October 2, 1974, and September 10, 1975, concerning the preparation of an environmental report for license renewal on TVA's Edgemont, South Dakota, uranium mill. On November 3, 1975, a meeting was held among the following TVA and Nuclear Regulatory Commission (NRC) Fuel Cycle Licensing Staff personnel:

NRC

TVA

Ralph Wilde
Wayne R. Hansen
W. R. Crow
J. E. Rothfleisch
J. F. Kendig

Richard Doty, Radiological Hygiene Branch
Ronald B. Maxwell, Environmental Assessment Staff
Nick Della-Volpe, Division of Law
Gary Krantz, Nuclear Raw Materials Branch

The meeting was held to discuss the contents and submission date of TVA's environmental information report (EIR).

Based on discussions with and recommendations of the licensing staff, TVA will submit 25 copies of the EIR at the same time the Source Material License (SUA-816) renewal application is submitted. We plan to submit the renewal application on or before January 29, 1976, in accordance with 10 C.F.R. Part 40.

If you require additional information, please get in touch with Allan T. Mullins, Chief, Nuclear Raw Materials Branch, 311 Chattanooga Bank Building, Chattanooga, Tennessee 37401.

Very truly yours,

J. E. Gilleland
Assistant Manager of Power
