SUBJECT: ORGANIZATION OF TEST, RESEARCH AND TRAINING REACTORS (TRTR) EFFORTS
ON THE NON-POWER REACTOR TECHNOLOGY COURSE

Dear Dr. Bauer and Dr. Wehring:

This letter is to acknowledge TRTR's participation in the Non-Power Reactor Technology Course from July 22, through July 26, 1996. As TRTR's representative, Mr. Frank DiMeglio's efforts to relate a TRTR perspective and his discussion of international programs on research reactors made a substantial contribution to the course. These efforts not only provided NRC personnel with an opportunity to hear TRTR's perspective, but also made a major contribution to ensuring that several international program participants from Turkey, Indonesia, and Mexico also had the opportunity to learn from Mr. DiMeglio's experience with non-power reactors. Also, let me again express my desire that such cooperation with TRTR continue in the future to ensure that a complete perspective is provided on this and other research reactor program efforts.

Sincerely,

Original signed by:

Seymour H. Weiss, Project Director
