License No. 29-01675-01
Docket No. 030-02440
Control No. 02497

Gentlemen:

Please find enclosed the renewal of your NRC Material License.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the Region I Material Licensing Section, (215) 337-5239, so that we can provide appropriate corrections and answers.

Please be advised that you must conduct your program involving licensed radioactive materials in accordance with the conditions of your NRC license, representations made in your license application, and NRC regulations. In particular, please note the items in the enclosed, "Requirements for Materials Licensees."

Please note that your medical license incorporated the use of the NRC's model ALARA program contained in Appendix O of Regulatory Guide 10.8 (Rev. 1), copy enclosed. This action was taken because your request did not contain information containing the ALARA program that you will follow.

As of August 15, 1980, our medical licensees were requested to submit an ALARA program with any significant amendment, renewal, or new byproduct material license application. If you wish to develop and submit an alternative ALARA program that is at least equivalent to the model ALARA program, your license may be amended accordingly.

Since serious consequences to employees and the public can result from failure to comply with NRC requirements, the NRC expects licensees to pay meticulous attention to detail and to achieve the high standard of compliance which the NRC expects of its licensees.

You will be periodically inspected by NRC. A fee may be charged for inspections in accordance with 10 CFR Part 170. Failure to conduct your program safely and in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in prompt and vigorous enforcement action against you. This could include issuance of a notice of violation, or in case of serious violations, an imposition of a civil penalty or an order suspending, modifying or revoking your license as specified in the General Policy and Procedures for NRC Enforcement Actions, 10 CFR Part 2, Appendix C.
