In accordance with Amendment No. 05, Condition 9.; "Authorized Use", of our materials license should be modified to read: "A, B & E to be used for oil and gas well logging".

The above described corrections, when incorporated into our license, will reflect our current program as it pertains to: (1) Condition 6. By product, sources, and/or special material; (2) Condition 7. Chemical and or physical form; (3) Condition 8. Maximum amount that licensee may possess at any one time under this license; (4) Condition 9. Authorized use.

Concerning Condition 12. i.e., Management Control, Amendment No. 04, dated 1-5-83 (Exhibit C) designating Paul E. Knight as Corporate Radiation Safety Officer and/or Thomas M.
