MEMORANDUM FOR: Region IV Investigation Staff _____
FROM: W. C. Seidle, Chief, RC&ES Branch
SUBJECT: TRANSFER OF RESPONSIBILITY TO THE RIV INVESTIGATIVE STAFF
FOR INVESTIGATION OF ALLEGED USE OF CONTROLLED SUBSTANCES
AT THE SOUTH TEXAS PROJECT SITE (DN 50-498; 50-499)

It is requested that your staff investigate the following allegation concerning use of controlled substances at the South Texas Project site:

At approximately 7:35 a.m. on April 18, 1980, the Resident Reactor Inspector received an anonymous telephone call from a person who identified herself as the wife of a STP worker. She stated that she was concerned for her husband's safety because of widespread use of drugs on the job. She stated that one can purchase "pot", cocaine, diet pills and other types of pills on the job. She questioned why site security does not use dogs to sniff out drugs when project personnel report for work.

She also stated that her husband is under a great deal of pressure because his fellow workers lie on their applications for employment and can't do their jobs. This causes him to have more work than he can handle.

She also stated that her husband had previously worked at [REDACTED]. She stated that [REDACTED] personnel used drugs and went to their vehicles at lunch to smoke "pot".

Region III has been notified of the allegation involving [REDACTED]
