Gentlemen:

I am responding to your letters of September 10, 1991, to the Office of the Controller and Mr. Stephen Baggett in which you respectively are requesting that you not be billed for Registration NR0236D101S and that the registration be allowed to lapse.

The bases for your requests are: 1) the registration was for a Coratomic Model C-100 pacemaker which you no longer manufacture; and 2) you do not intend to manufacture any more of these pacemakers.

Additionally, we note from information in our files that, upon receipt of Invoice AM02388-91, you returned it to NRC annotating you had received another invoice for your License SNM-1319; your annotated copy of the invoice was received by NRC on August 6, 1991; we called you on August 30, 1991, to explain that Invoice AM02388-91 was for the Registration, not your license. You then wrote NRC on September 10, 1991, asking that your registration be made inactive and you not be billed.

Unfortunately, due to the large volume of correspondence, we have just completed resolving your inquiry. Based on the information you provided and the annotated returned invoice in our files, the Commission: 1) grants a 32-day extension to September 10, 1991, for filing a termination request, 2) accepts your letter as having been filed consistent with Commission regulations, and 3) deems your actions timely filed for purposes of avoiding the FY-1991 annual fee for registration NR0236D101S.

Based on the above, Invoice AM02388-91 will be cancelled.

Sincerely,

Original signed by
