Radiography Inspection, Inc.  
ATTN: Orville McBride, President  
202 S. Virginia Street  
P. O. Box 1850  
Liberal, Kansas 67901

Gentlemen:

Thank you for your letters of February 15 and April 23, 1985, in response to our letter and the attached Notice of Violation dated February 15, 1985, and our request for additional information dated April 8, 1985. As a result of our review, we find additional information, as discussed with Mr. Orville McBride during a telephone call on April 30, 1985, is needed. Specifically, with regard to your response to Item 5, we need to know that you have obtained NRC certificate of compliances for each model of Type B shipping containers used in your operations. We also need to know if you have established an approved quality assurance program for your Department of Transportation specification containers required by 10 CFR 71.12. An example of such a program is enclosed. Finally, we need to know what steps will be taken to prevent further violations of the regulations pertaining to the transportation of radioactive material. A summary of such regulations for radiography devices is contained in the enclosed Information Notice.

Please provide the supplemental information within 10 days of your receipt of this letter so that we can continue our review of this matter.

Sincerely,

Original Signed By

R. J. Everett, Acting Chief  
Nuclear Materials Safety and  
Safeguards Branch
