MEMORANDUM FOR: Donald E. Funk Jr., Allegation Coordinator

FROM: Charles E. Norelius, Director, Division of Radiation Safety  
and Safeguards

SUBJECT: CONCERN RE: MALLINCKRODT MEDICAL, INC.  
(AMS NO. R111-92-A-0026)

My staff has reviewed letters dated June 3 and August 31, 1992, and a facsimile dated July 3, 1992, provided by the licensee in response to our April 21, 1992 letter. In our letter we requested the licensee to review a concern related to an individual's request for personal radiation exposure records. Our review of the above referenced documents indicates that the licensee adequately reviewed the concern and concluded that all applicable personal radiation exposure records were provided to the individual. No violations of NRC requirements were identified in our review of the documentation provided. It is our recommendation that the concern be closed.

Attached to this memorandum is a letter to be sent to the licensee acknowledging receipt of their letters and facsimile and indicating that their review of the concern was adequate.

If you have any questions regarding this memorandum, please contact Gary Shear of my staff.

Charles E. Norelius, Director  
Division of Radiation Safety  
and Safeguards
