---

Good Morning Jessica,

The request to amend Molecular NeuroImaging's NRC license is signed by Indukala Doddamane, Radiation Safety Officer and Authorized User rather than senior management, such as Jack Hoppin, CEO. Please submit a letter from Mr. Hoppin indicating that he is aware of the request and is in agreement with it and confirming that Dr. Doddamane has the authority to sign the letter.

Regards,

Robert L. Gallagher  
Health Physicist  
U.S. NRC, Region I  
2100 Renaissance Blvd.  
King of Prussia, PA 19406

**Subject:** NRC Amendment - License Number: 06-30624-01

Dear Mr. Gallagher,

I am writing on behalf of Molecular NeuroImaging to request an amendment to our NRC license (06-30624-01). The purposes of this amendment request as outlined in the attached letter are to; increase the maximum amount of Zirconium-89 allowed and to add an additional SPECT scanner and injection room. Our Radiation Safety Officer, Dr. Indukala Doddamane, is copied on this email.

In addition to the attached letter, the following supporting documentation has been provided for your review:

- NRC Form 313
- Current 8<sup>th</sup> Floor Layout
- 8<sup>th</sup> Floor Updates with Shielding Plans
- SPECT CT Shielding Assessment

Please review the attached documentation and contact me and Dr. Doddamane should you have any questions or concerns. If the NRC requires a hardcopy of this submission, please let me know. Thank you.

***Best regards,  
Jessica***
