2100 RENAISSANCE BLVD.
KING OF PRUSSIA, PA 19406-2713

April 29, 2020

Blake Howard, VP Treasurer, FPA
21st Century Oncology
2270 Colonial Boulevard
Fort Myers, FL 33907

SUBJECT: 21ST CENTURY ONCOLOGY, ACCEPTANCE OF NOTIFICATION OF AN
INDIRECT TRANSFER OF CONTROL, MAIL CONTROL NO. 617596

Dear Mr. Howard:

By letter dated December 19, 2019, 21st Century Oncology requested written consent by the U.S. Nuclear Regulatory Commission (NRC) to a proposed indirect transfer of control of the license to Orion US Holdings. From your letter, we understand that this transfer will not result in any change to the location of use, materials, persons using licensed material, or persons responsible for radiation safety at the licensed facility. We further understand that the name will not change and will remain as 21st Century Oncology.

Based on the above understandings, as more fully detailed in the enclosed NRC staff's Safety Evaluation Report, which documents the NRC staff's safety review of the request, the NRC consents to the proposed transfer. **Please note that you will need to notify us promptly, in writing, after the transaction has been finalized and include a signed copy of the sales agreement confirming completion of the transactions. Please notify the NRC in writing if this planned sale has not been consummated within 30 days of the date of this letter, or this consent may be deemed null and void.** If you have any questions regarding this letter, please contact me at 610-337-5272 or via electronic mail at tara.weidner@nrc.gov.

Based on the above understandings, the NRC consents to the proposed indirect transfer of control of NRC Materials License No. 09-31177-01. Future changes in the licensee's name, licensed use, licensed materials, licensed location, or persons responsible for licensed material require submission of a request to amend the license. NRC approval must be received prior to implementation of the proposed change.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web Site at: <http://www.nrc.gov/reading-rm/adams.html>.

Thank you for your cooperation in this matter.

Sincerely,

Tara L. Weidner, Senior Health Physicist
Medical and Licensing Assistance Branch
Division of Nuclear Materials Safety
Region I
