

STATUS OF AGREEMENT STATE REGULATIONS

This chart is a status of final Agreement State regulations that the U.S. Nuclear Regulatory Commission (NRC) staff has reviewed as of August 25, 2020. Under the Integrated Material Performance Evaluation Program (IMPEP), a finding that Agreement State regulations meet the compatibility and health and safety categories of the equivalent NRC regulation may only be made based on a review of the final Agreement State regulations. A determination of whether overdue rules affect an Agreement State's ability to protect health and safety, and compatibility is made during the State's IMPEP review. Note this chart does not reflect final regulations that may have outstanding NRC comments that will need to be resolved.

| State | Number of Amendments Overdue | Significant Amendment Identification |
|-------------------|-------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------|
| Alabama | 1 | |
| Arizona | 1 | 2013-2 Distribution of Source Material to Exempt Persons and to General Licensees and Revision of General License and Exemptions Parts 30, 40, and 70 |
| Arkansas | 0 | |
| California | 1 | 1997-6 License Termination Rule issued, but overturned by State court; state implementing on a case-by-case basis. |
| Colorado | 0 | |
