Dear Mr. King,

Nov 24, 1992
1952 Palisade Dr.
Appleton, WI
54915

Thank you for your Nov 16 letter
in response to my Sept. 29 letter asking for
information on how to find the comments.
As you noted, since I didn't hear from you,
I found out by myself.

What I want to know is if people who
wrote comments will get a personal response.
If not, and all the comments are responded to
in a final ruling in the Federal Register, how are
these people notified of that? A lot of these
people never heard of the Federal Register, much
less know where to find it in their area or how
to find something in it. And even if they managed
that, not having any idea of the date of a
ruling, one would just have to read the
Federal Register every day (which of course
won't be done). These are at a college in the government
documents at one site in each county and I
understand it. People don't know where these
documents are, much less, have the time
to spend trying to find a final ruling when
they don't even know the date it will come out.
I request that you send me a
notice when a final ruling comes out and
(over)

where to find it in the Federal Register. I would really appreciate that as I don't know how else I would know.

I really think it would be a matter of common courtesy by the NRC to also notify all these farmers, working people living near the plants, as well as citizens groups etc. that took the time to send in 125 comments, of the final ruling and how to get a copy.

A personal response to each comment, of course would be best, but if it is to be a general response in the Federal Register, these people at least deserve a notice of that.

The more information you give to concerned people in the public, the better they will understand the situation. The more secret you are with information and make it hard to obtain, the more you promote distrust in this review system.

It took a lot for many of these people to write their notes - maybe not all intellectual - maybe not well informed - but none the less - very concerned. The polite thing would be that they get some response and at least a notice of a final ruling.

Thank you,

Fawn Shillinglaw
