CORRECTIONS TO MONTICELLO FINAL ENVIRONMENTAL STATEMENT

Plant name: Monticello
 Licensing stage: OL
 Docket number: 50-263
 Responsible branch: EPB-3
 Project Manager: R. Beran
 Description of response: Corrections to Monticello Final Environmental Statement
 Radiological Assessment Branch review status: Complete

The following changes should be indicated on an errata list for the Monticello PES:

Page III-28, Table III-7A
 change the I-131 releases from 0.116 and 0.046 to 0.039 and 0.016 Ci, respectively.

Page V-29, 4th paragraph
 change total body and skin doses from 1.0 and 2.2 to 1.9 and 3.9 mrem/yr, respectively.

Page V-29, 5th paragraph
 change total body and skin doses from 8.4 and 14 to 17 and 29 mrem/yr, respectively.

Page V-30, 1st paragraph
 change total body and skin doses from 0.84 and 1.6 to 0.90 and 1.8 mrem/yr, respectively.

Page V-30, 2nd paragraph
 change total body and skin doses from 6.6 and 11 to 11 and 19 mrem/yr, respectively.

Battelle's latest computer code was used to estimate the preceding revised doses from elevated radioactive releases.

Input furnished by F. Congel, RAB.

Harold R. Denton, Assistant Director
 for Site Safety
 Directorate of Licensing
