Dear Mr. Reid:

In partial response to your staff's August 21, 1979 letter we are transmitting five copies of the generic report on "Auxiliary Feedwater Systems Reliability Analyses for Babcock & Wilcox Reactors", (BAW-1584, December, 1979 and revised for Davis-Besse Unit 1 and Crystal River-3, December 31, 1979 and January 4, 1980 respectively). The plant specific analysis for Davis-Besse Nuclear Power Station Unit 1 was forwarded to you in draft form by our letter dated November 13, 1979 (Serial No. 556). That analysis was finalized without revision. Five copies of the Davis-Besse Unit 1 final analysis, Revision 1, November, 1979 are also attached.

Very truly yours,
