DOCKET NUMBER

(7)

PETITION RULE PRM-71-743FR25749

Mr. Samuel Chilk
Secretary of the Commission
U. S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Chilk

I wish to comment on the petition contained in the Federal Register dated June 14, 1978 (Docket No. PRM 71-7, Nondestructive Testing Management Association, ET A1).

I feel that there is a lack of justification for Appendix E to Part 71. I do not think that more regulations are necessary in this industry which has an outstanding safety record now. In view of the unnecessary cost of adding this to the already high amount of records required, I respectfully request that Part 71 Appendix E be removed.

Respectfully yours
