NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

DEC 11 1992

Docket No. 50-322

MEMORANDUM FOR: John H. Austin, Chief
Decommissioning and Regulatory
Issues Branch, LLWM/NMSS

FROM: Clayton L. Pittiglio, Jr., Project Manager
Decommissioning and Regulatory
Issues Branch, LLWM/NMSS

SUBJECT: SUMMARY OF THE MEETING REGARDING SHOREHAM NUCLEAR POWER
STATION TEMPORARY RADWASTE SYSTEM

DATE AND TIME: Monday, November 23, 1992 - 10:00 a.m.

LOCATION: One White Flint North
11555 Rockville Pike
Rockville, MD 20852

ATTENDEES: NRC Shoreham
C. L. Pittiglio L. Britt
L. Bell T. Jernigan
D. Fauver D. Stark
A. Rauf
G. Burtz
Yankee Atomic
J. Grant
R. Meller

SUMMARY: The licensee described their anticipated decommissioning strategy for the liquid radwaste system, use of a temporary liquid radwaste system, and decommissioning of the spent fuel pool cleanup system at the Shoreham Nuclear Generating Station. A copy of the briefing package is enclosed.

The staff stated that use of the existing liquid radwaste system has been approved by the staff, and that no additional system approvals are necessary, as long as applicable portions of the approved system are used. The staff requested that the licensee provide a schedule that would indicate when the proposed temporary liquid radwaste system would be required. The staff pointed out to the licensee that they have the option of referencing an NRC approved topical report that describes a temporary liquid radwaste system that would meet their needs.

In addition, the staff recommended that the licensee describe the proposed changes associated with anticipated spent fuel pool cleanup system decommissioning, including the need for any changes to the technical specifications that would result from the use of a temporary spent fuel pool cleanup system.
