original

Docket Nos. 50-413 and 50-414
(10 CFR 2.206)

Robert Guild, Esq.
P.O. Box 12097
Charleston, South Carolina 29412

Dear Mr. Guild:

This is in response to your request for action filed pursuant to 10 CFR 2.206 on June 27, 1984, in which you asked the Director, Office of Inspection and Enforcement, to institute proceedings to modify, suspend, or revoke the construction permits for Duke Power Company's Catawba Nuclear Station and to take other appropriate action on the basis of violations of Appendix B to 10 CFR Part 50 and instances of harassment and intimidation of quality control inspectors. My decision in this matter was delayed as a result of a decision by the U.S. Court of Appeals for the Fifth Circuit in Brown and Root, Inc. v. Donovan, which was directly related to some of the issues raised by your request. My decision was then further delayed to allow time to evaluate a letter filed by Duke Power Company on April 22, 1985 in response to an "Enforcement Action Request" which had previously been filed by the Government Accountability Project and which concerned the same issue of enforcement action raised in your request. For the reasons stated in the enclosed "Director's Decision under 10 CFR 2.206," your request has been granted in part and denied in part.

A copy of this decision will be filed with the Secretary of the Commission for its review in accordance with 10 CFR 2.206(c) of the Commission's regulations. As provided by this regulation, the decision will constitute the final action of the Commission 25 days after the date of issuance of the decision unless the Commission, on its own motion, institutes a review of the decision within that time.

A copy of the notice, which is being filed with the Office of the Federal Register for publication, is also enclosed.

Sincerely,

James M. Taylor, Director
Office of Inspection and Enforcement

Enclosure: As stated
