50-446

COMANCHE PEAK STEAM ELECTRIC STATION
SUMP ISOLATION VALVE MOTORS
QA FILE: CP-85-08, SDAR-169
FILE NO.: 10110

Dear Mr. Hunter:

On February 15, 1985 we verbally notified your Mr. D. Hunnicutt of a deficiency regarding the sump isolation valve motors that were not qualified environmentally per IEEE-323 (74) for service conditions. We submitted an interim report logged TXX-4434 dated March 5, 1985.

We have completed our investigation and concluded that the matter is not reportable under 10CFR50.55(e). Records supporting this determination are available for your inspector's review at the CPSES site.

Very truly yours,

Billy R. Clements
