

2-17-80

Dear Sirs:

Please come to Tulsa and hold meetings on the issue of evacuation around nuclear power plants.

I know that existing plans are nowhere adequate in case of a nuclear meltdown.

I am 16 years old, and my family and I live in a close radius to the proposed Black Fox Nuclear Plant in Inola, Oklahoma. I am very well read on the subject of nuclear power, and believe me I'm scared to death of it! Please help stop Black Fox!

Acknowledged by card... 2/29

Sincerely,
Lisa Libbette
Tahlequah, Ok
