Before the Atomic Safety and Licensing Board

In the Matter of Metropolitan Edison Company, Three Mile Island, Unit 1  
Docket 50-269 (Reactors)

Amend Interrogatories of NRC Regarding Contention 4 - Third Set

These interrogatories are filed pursuant to 10 CFR 2.740 b which requires that the interrogatories be answered separately and fully in writing and under oath or affirmation.

1. What data will be, or is planned to be, monitored by NRC staff at an NRC control center according to your proposed plans?
2. What will be the mechanism for data transmission?
3. What objection, if any, would you have to providing this data simultaneously to local county commissioners?
4. What was the NRC role in restricting national TV news programming in the Harrisburg area during TMI-2 accident?
5. What studies have you made to assure telephone circuit availability during an emergency?
6. Describe in detail the expected actions that you would require to be taken by the shift supervisor in the course of an event which leads to declaration of
  - a. a site emergency,
  - b. a general emergency.
7. Provide model scenarios for 6.

Respectfully submitted,

*Norman C. Penick*
