

To: The Nuclear Regulatory Commission
Docketing and Service Section
Washington, D. C. 20555

To Whom It May Concern:

There are already 3 nuclear reactors at Morris, Illinois, southwest of the Chicago Metropolitan Area, and 2 more at Zion, to the North.

To build yet another nuclear reactor at Bailly, in the middle of the Indiana Dunes National Lakeshore, and even closer to Chicago, would be to increase the potential for disaster even more.

Please do not allow this nuclear plant to be built. Thank you.
