Attention: Dr. M. E. Remley, Manager,
Health, Safety and Radiation Services

Gentlemen:

Subject: NRC Inspection at Headquarter Site

This refers to an inspection conducted by Mr. W. J. Cooley of this office on August 21-24, 1979 and to the discussions held by Mr. Cooley with Messrs. M. E. Remley and R. J. Tuttle of your staff at the conclusion of the inspection.

Areas examined during this inspection are described in the enclosed inspection report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector.

No items of noncompliance with NRC requirements were identified within the scope of this inspection.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and the enclosed inspection report will be placed in the NRC's Public Document Room. If this report contains any information that you believe to be proprietary, it is necessary that you submit a written application to this office, within 20 days of the date of this letter, requesting that such information be withheld from public disclosure. The application must include a full statement of the reasons why it is claimed that the information is proprietary. The application should be prepared so that any proprietary information identified is contained in an enclosure

to the application, since the application without the enclosure will also be placed in the Public Document Room. If we do not hear from you in this regard within the specified period, the report will be placed in the Public Document Room.

Should you have any questions concerning this inspection, we will be glad to discuss them with you.

Sincerely,

A handwritten signature in dark ink, appearing to read "H. E. Book". The signature is fluid and cursive, with the first letters of each word being capitalized and prominent.
