OFFICE OF SECRETARY  
DOCKETING & SERVICE  
BRANCH

In the Matter of  
KERR-MCGEE CHEMICAL CORPORATION  
(West Chicago Rare Earths Facility)  
Docket No. 40-2061 ML, ASLBP No. 83-495-01-ML

Dear Ms. Rapkin:

This is in response to your letter to me of June 4, 1985 commenting that the documents you reviewed at Argonne National Laboratory on May 31 all appeared to be from Steve Tsai's files. As you clarified to me during our meeting on June 6, there were documents made available for your review that were not marked as being from Steve Tsai's files. Those documents would have been from the files of other ANL personnel currently reviewing the West Chicago decommissioning application. Also, boxes marked as being from Dr. Tsai's office included, in addition to his own files, material from other personnel at ANL who have previously worked on this matter.

You inquired in your letter as to whether there are additional documents at ANL covered by your discovery request which have not been produced. With the exception of those documents currently being reviewed at NRC to determine whether they are privileged, to the best of ANL's knowledge all such documents were produced. As I indicated to you on June 6, the Staff will advise you in writing as soon as possible as to the production of documents currently under review.

Sincerely,

*Stephen H. Lewis*
