Ivan W. Smith, Chairman
Atomic Safety and Licensing Board
25 North Court Street
Harrisburg, Pa. 17101

Dear Mr. Smith,

I understand a public meeting will be held on March 5, 1981 to hear statements on issues concerning the re-starting of Unit 1 at T.M.I.

My firm and each of its 43 employees fully support the restarting of this facility. The unnecessary extra charges for power in the Metropolitan Edison serviced area of Central Pa. is creating economic havoc for many businesses. This added burden has placed many of us in a position of being non competitive with similar businesses that are serviced by other power companies. Many jobs are in jeopardy. Last year our little business paid \$1600.00 in extra charges for power that had to be purchased by Metropolitan Edison from other companies. We can't afford it any more.

RESTART UNIT #1.

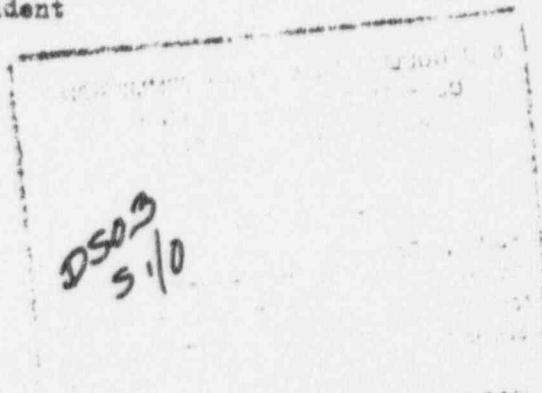

Sincerely,

BRANDYWINE RECYCLERS, INC.
