Docket No. 50-219

Dr. Robert L. Long  
Vice President and Director  
Corporate Services/TMI-2  
GPU Nuclear Corporation  
One Upper Pond Road  
Parsippany, New Jersey 07054

Dear Dr. Long:

SUBJECT: OYSTER CREEK NUCLEAR GENERATING STATION - INTEGRATED SCHEDULE  
ABC LIST UPDATE

GPU Nuclear Corporation (GPUN) provided the seventh update to the integrated schedule dated December 7, 1992. The semiannual update included a listing of projects completed during the past 6 months since the June 5, 1992 submittal, and discussed reasons for scope and schedule changes as required by the approved Long Range Planning Program (LRPP). The purpose of this letter is to document our review.

We have reviewed the Category ABC list and find that the projects listed to be in compliance with the LRPP and to be acceptable except for the following:

Item B/A - 409773 - Access Control Upgrade

This matter will be discussed at the January 12, 1993 meeting with GPU Nuclear Corporation (GPUN).

It should also be noted that GPUN has not responded to our request for additional information concerning Item B/A-328030 - Human Engineering changes to the control room, and Item B/A-40280 - Conversion of Existing Sigma Computer Room into a GSS Office. Please respond to these matters within 15 days of receipt of this letter.

This requirement affects one respondent and, therefore, is not subject to Office of Management and Budget review under P.L. 87-511.

Sincerely,

Original signed  
by

Alexander W. Dromerick, Senior Project Manager  
Project Directorate I-4  
Division of Reactor Projects - I/II  
Office of Nuclear Reactor Regulation
