SUBJECT: DOE ADVISORY PANEL ON WASTE MANAGEMENT ORGANIZATION

*John - Present the report.
RC7
12/12/84*

In my November 30 memorandum to you (copy enclosed), I indicated that DOE's advisory panel on alternatives to managing and financing the high-level waste program had completed its work, and that we were awaiting their final draft report for review. We have received the final draft and I would like to request your assistance in this review. A copy of the report is enclosed. In particular, please focus on identifying the impacts on NRC's regulatory role that could be expected if the Panel's recommendations were implemented.

I would appreciate receiving your comments on the study by December 28. If you have any questions regarding this review or should you require additional copies, please contact Neil Numark, Division of Waste Management, extension 74328.
