

DEC. 24 1992

Docket No. 50-213

Mr. John F. Opeka
Executive Vice President - Nuclear
Connecticut Yankee Atomic Power Company
P.O. Box 270
Hartford, Connecticut 06141-0270

Dear Mr. Opeka:

SUBJECT: NRC INSPECTION NO. 50-213/92-25

An announced safety inspection of the radiation protection program at your facility was conducted by Mr. J. Furia of this office on December 14-17, 1992. The inspection findings were discussed with members of your staff at the conclusion of the inspection on December 17, 1992.

Areas examined during this inspection are important to health and safety and included the radiation protection program. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector. The specific areas included management organization, training, assurance of quality, radiation control during normal operations, ALARA, and implementation of these programs.

Continued strong performance in the radiation protection program was noted. Training of radiation protection technicians, including continuing training and training for contractor radiation protection personnel was a notable strength. Within the scope of this inspection, no radiological safety concerns or violations of regulatory requirements were identified.

No response to this letter is required. Your cooperation with us is appreciated.

Sincerely,

Original Signed By:
James H. Joyner
