

JUN 04 1985

Docket No. 50-286

Power Authority of the State of New York  
Indian Point 3 Nuclear Power Plant  
ATTN: Mr. William Josiger  
Resident Manager  
P.O. Box 215  
Buchanan, New York 10511

Dear Mr. Josiger:

On November 28, 1984, the Indian Point 3 Nuclear Power Plant's emergency preparedness exercise for the State of New York and local governments was observed by the Federal Emergency Management Agency (FEMA). Enclosed is the Post Exercise Assessment report dated February 27, 1985 which provides the FEMA findings.

During the course of the exercise, two deficiencies were identified by FEMA which could lead to a negative finding. These were 1) the formulation and issuance of Emergency Broadcast Messages (EBS) from the Joint News Center were delayed; and 2) decisionmaking regarding protective action recommendations was delayed in Rockland County. On April 10, 1985 a remedial drill was held to retest these and other deficiencies identified in the report.

We request that you continue to coordinate your planning efforts with those of the State of New York and local emergency planning authorities to assure deficiencies in offsite emergency preparedness are expeditiously corrected.

If you have any questions concerning this matter, please contact Mr. T. Harpster of my staff at (215) 337-5208.

Sincerely,

Original Signed By:

Ronald R. Bellamy, Chief  
Emergency Preparedness and  
Radiological Protection Branch  
Division of Radiation Safety  
and Safeguards
