UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555

December 23, 1992

The Honorable Richard G. Austin
Administrator
General Services Administration
Washington, DC 20405

Dear Mr. Austin:

As you requested in your letter dated November 23, 1992, I have signed both copies of the redelegation of authority to operate and maintain NRC facilities. I am returning one of the copies to you and will retain the other copy for our records.

Please note that Appendix I and Appendix II, Figure C, have been revised to include two buildings omitted from the original document. Moreover, the funding levels per building as shown in Appendix II, Figure C, need to be adjusted since the \$83,788 now listed for Building #7 (Building Number: MD1424ZZ) had been allocated among the other NRC building totals in the original version of the document. I understand that Ms. Penny Einarsen of your staff has been informed of these necessary changes.

We look forward to GSA's continued cooperation and support.

Sincerely,

Ivan Selin
