

July 26, 1985.

Dear Friends of the Pump:-
Components of the Ft. Pleasant
pump do not realize that they are
responsible for our increased rates
in electricity, and lack of water for
home use. They are responsible for
the misappropriated funds -- for the
loss of the use of the funds which
have been saved for the completion of
our pumping station

More than this -- they are seek-
ing to change our form of government.
We ought to pray every day God will
help us.
