Re: In Re Circuit Breaker Litigation
USDC, Central District California
Case No. CV88-3012 RG

Dear Sir:

Our firm represents Westinghouse Electric Corporation in the above-referenced litigation. In order to develop information that will assist Westinghouse in this case, we wish to make a request under the authority of the Freedom of Information Act, 5 United States Code § 552, and 10 Code of Federal Regulations § 9.23 for certain documents in the possession of the Nuclear Regulatory Commission.

This request is for all documents concerning the NRC Inspection of MCCB Adjustment Procedures at Susquehanna Steam Electric Station--NRC Docket No. 50-387/388, and including, but not limited to, File No. RI-89-A-0072. In addition to all documents relating to the Report issued by Region I of the Nuclear Regulatory Commission on March 6, 1990 following its Inspection of Susquehanna Units 1 and 2 on January 22 through 26, 1990 (hereinafter the "Report"), we wish to obtain copies of any and all subsequent reports, notes, investigations, or dissenting opinions issued by anyone at the Nuclear Regulatory Commission

regarding any of the issues raised in the March 6, 1990 Report. These documents would include correspondence to or from parties outside the Nuclear Regulatory Commission regarding the Report, as well as any reports or notes made by Commission personnel regarding any visits to or discussions with any companies that manufacture molded case circuit breakers ("MCCB's"), including Westinghouse, regarding the procedures followed at the Susquehanna Steam Electric Station.

We will, of course, reimburse you for the search and copy costs associated with this request, as specified in 10 Code of Federal Regulations §§ 9.33 et. seq. Please let me know as soon as possible if you require any additional information in order to comply with this request.

Sincerely,

Marsha Hymanson
