Mr. Domenic B. Vassallo, Chief  
Director of Nuclear Reactor Regulation  
Operating Reactors Branch No. 2  
Division of Licensing  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555

Dear Mr. Vassallo:

Subject: Operational Status of On-Site Communications Capabilities at Cooper  
Nuclear Station (CNS) NRC Docket No. 50-298, DPR-46

Reference: (a) Letter (NLS8500023) from J. M. Pilant to D. B. Vassallo,  
dated February 1, 1985, Annual Emergency Preparedness  
Exercise.

(b) Letter from D. B. Vassallo to J. M. Pilant, April 1, 1985,  
Annual Emergency Preparedness Exercise.

In accordance with commitments made in reference (a), Nebraska Public Power District has conducted a test of communications capability using appropriate equipment located in the Technical Support Center and the Emergency Operations Facility. This test included verification of operability of all communication and dose assessment equipment, and was completed on May 28, 1985.

Should you have any questions concerning this matter, please contact me.

Sincerely,

J. M. Pilant  
Manager, Technical Staff  
Nuclear Power Group
