

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D. C. 20555

JUL 23 1984

MEMORANDUM FOR: Darrell G. Eisenhut, Director  
Division of Licensing  
Office of Nuclear Reactor Regulation

FROM: Edward L. Jordan, Director  
Division of Emergency Preparedness  
and Engineering Response  
Office of Inspection and Enforcement

SUBJECT: FEMA REVIEW OF REVISION 4 OF THE LILCO  
TRANSITION PLAN FOR SHOREHAM

In response to a formal request from the NRC that the Federal Emergency Management Agency (FEMA) conduct a review of Revision 4 to the Shoreham Nuclear Power Station Local Offsite Radiological Emergency Response Plan (i.e., the Transition Plan), FEMA provided the enclosed response dated July 11, 1984. This response is being forwarded for your information.

As noted in the enclosure, FEMA intends to provide findings on Revision 4 of the LILCO Transition Plan on November 15, 1984. We have informed the Atomic Safety and Licensing Board Panel of this date in the course of preparing the quarterly Simpson report on the status of offsite emergency preparedness. The Panel has advised us that a decision on offsite emergency planning issues for Shoreham is not expected before January 1985 and that the possibility of a licensing impact resulting from emergency planning issues will be reassessed as the schedule for hearing on issues other than emergency planning becomes more definite.

Edward L. Jordan, Director  
Division of Emergency Preparedness  
and Engineering Response  
Office of Inspection and Enforcement
