Dear Mr. Malphurs:

Subject: Inspection No. 030-10026/91-001

This refers to your letter dated May 15, 1991, in response to our letter dated May 8, 1991.

With respect to your documented corrective action for Violation B, and based on a telephone conversation between Mary Cahill of this office and Dr. Flesh on July 3, 1991, we understand that you will use the Calicheck adaptor kit to evaluate dose calibrator response down to 10 microcuries on all future linearity tests.

Thank you for informing us of the corrective and preventive actions. These actions will be examined during a future inspection of your licensed program.

Your cooperation with us is appreciated.

Sincerely,

Original Signed By
