SUBJECT: NRC INSPECTION REPORT 50-313/92-28; 50-368/92-28 (NOTICE OF VIOLATION)

This refers to the special inspection conducted by Messrs. A. B. Earnest and T. W. Dexter of this office and Ms. N. E. Ervin of the Office of Nuclear Reactor Regulation on December 7-11, 1992. The inspection included a review of the access authorization program authorized for your Arkansas Nuclear One facility. A portion of the inspection was conducted at your corporate headquarters offices in Jackson, Mississippi. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed report.

The access authorization program areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examination of procedures and representative records, review of randomly selected samples of the background investigations, interviews with personnel, and observation of activities in progress.

Based on the results of this inspection, one of your activities appeared to be in violation of NRC requirements, as specified in the enclosed Notice of Violation (Notice). The violation indicated your failure to inform Entergy employees of their responsibility to report any arrest which might impact the employee's trustworthiness. An unresolved item was identified and is discussed in Section 1.2 of the enclosed report.

You are required to respond to this letter and should follow the instructions specified in the enclosed Notice when preparing your response. In your response, you should document the specific actions taken and any additional actions you plan to prevent recurrence. After reviewing your response to this Notice, including your proposed corrective actions, the NRC will determine whether further NRC enforcement action is necessary to ensure compliance with NRC regulatory requirements.

-2-

In accordance with 10 CFR Part 2.790 of the NRC's "Rules of Practice," a copy of this letter and its enclosures will be placed in the NRC's Public Document Room.

Should you have any questions concerning this inspection, we will be pleased to discuss them with you.

Sincerely,

L. J. Callan, Director
Division of Radiation Safety
and Safeguards
