Dear Mr. Keppler:

LaSalle County Stations' Environmental Monitoring Program will be expanded so as to complete the inner TLD ring surrounding the station. Six new locations are to be included in the Sample Collection Schedule beginning the third quarter of 1985. The collection and analysis of these TLDs will follow the same procedures as those for TLDs currently collected.

Concurrently, as new TLDs are added to the program, all TLD numbers at LaSalle County Station will be revised to conform with the TLD numbering system shown on the attached page. This numbering system will be used at all stations so that TLD numbers are consistent from one station to another. The following lists the current versus revised TLD numbers at LaSalle County Station.

<u>Current</u>	<u>Revised</u>	<u>Current</u>	<u>Revised</u>	<u>Current</u>	<u>Revised</u>
new	101	new	107	111	112
new	102	107	108	112	113a
new	103	108	110	113	113b
new	105	109	111a	114	114
new	106	110	111b		

The enclosed map may be used as a reference for the new TLD locations and number revision as of July 1, 1985. If you have any questions, please contact D. Kenealy of my staff at 294-3271.

Sincerely,

John C. Golden
 John C. Golden

The TLD's are coded as follows:

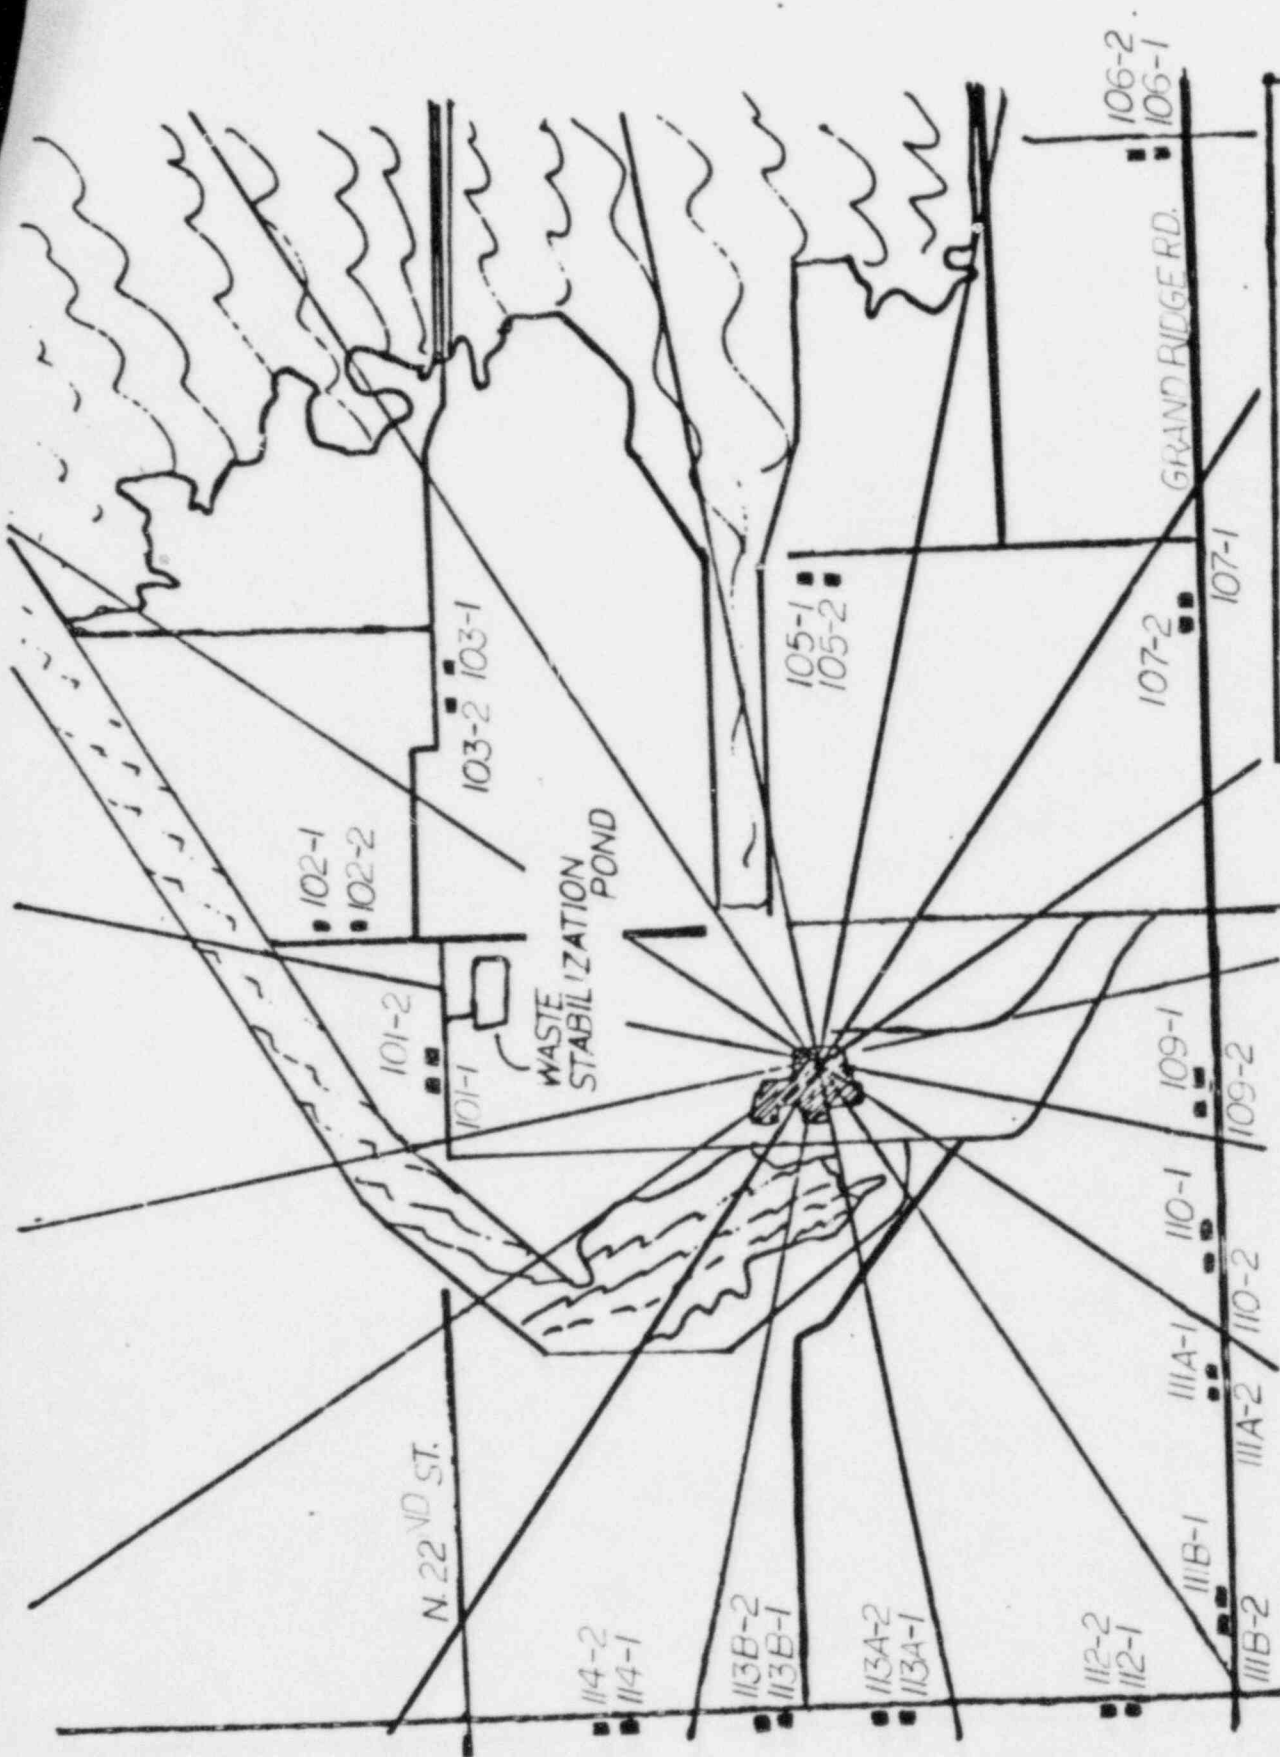

XY-N, Where:

X = 1, means inner ring;

X = 2, means outer ring; and

YY-N is an identification code.
