Chattanooga, TN 37402-2801

Gentlemen:

SUBJECT: SEQUOYAH REQUALIFICATION EXAMINATION REPORT NO. 50-327/92-302

This refers to the Nuclear Regulatory Commission administered requalification examinations led by Ronald F. Aiello during the weeks of November 30 and December 7, 1992. These examinations were administered to employees of your company who hold licenses to operate the Sequoyah Nuclear Plant. At the conclusion of the examination, the examination questions and preliminary findings were discussed with those members of your staff identified in the Examination Report, Enclosure 1.

The examination team found that the Sequoyah Nuclear Plant requalification program is classified as satisfactory. A Simulator Fidelity Report is provided as Enclosure 2. A copy of the written examination questions and answer key, as noted in Enclosure 3, was provided to members of your training staff at the conclusion of the examination.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosures will be placed in the NRC Public Document Room.

Should you have any questions concerning this examination, please contact us.

Sincerely,

(Original signed by T. A. Peebles)

Thomas A. Peebles, Chief
Operations Branch
Division of Reactor Safety
