Docket No. 50-187

Northrop Corporation  
Northrop Research and Technology Center  
ATTN: Mr. J. Benveniste  
NRTC Chief Scientist  
One Research Park  
Palos Verdes Peninsula, California 90274

Gentlemen:

We have received a copy of your January 14, 1985 letter that transmitted your decommissioning plan and environmental report (for your TRIGA research reactor) to the Office of Nuclear Reactor Regulation for review and approval. An application fee pursuant to the provisions of 10 CFR 170.12(c) of the Commission's regulations was not remitted with your request.

The regulations, as revised June 20, 1984 (copy enclosed), require licensees to remit a \$150 application fee with each application for license amendment, relief or other approval such as decommissioning of a facility and license termination. Therefore, it is requested that the Corporation remit the required \$150 application fee for their January 14 request. You will be billed for additional costs for the review of your application in accordance with 10 CFR 170.12(c) and 170.21.C.

Sincerely,

Original Signed by:
