Technical Specification Change Request No. 126

Dear Sir:

Our change request dated February 14, 1985 was based on the then pending NRC approval of BAW-1543, Rev. 2, which was submitted on behalf of the Babcock & Wilcox Owners Group Materials Subcommittee with FPC as an active participant. At the request of the NRC staff, we did not include a reference to the topical in our proposed Technical Specification Change Request. The topical has since been approved (May 8, 1985 SER from C. Thomas, NRC to J. Taylor, B&W). Therefore, we wish to supplement our change request by noting that the deleted capsule schedule will be controlled via NRC approval of appropriate submittals on behalf of the B&W Owners Group in response to 10 CFR 50, Appendix G. The most recent such submittal is BAW-1543, Rev. 2.

Sincerely,

G. R. Westafer  
Manager, Nuclear Operations  
Licensing and Fuel Management
