

Congress of the United States

House of Representatives

Washington, D.C.

11 April 1968

Congressional Liaison  
Atomic Energy Commission  
Washington, D. C.

Sir:

The attached communication  
is sent for your consideration.  
Please investigate the statements  
contained therein and forward me  
the necessary information for re-  
ply, returning the enclosed corre-  
spondence with your answer.

Yours truly,

Joseph E. Karth M. C.  
4th District, Minnesota

Encl: Letter from Mrs. Henry Cowie

Henry H. Cowie

April 9

APR 11 1968

Dear Mr. Kauth,

I would like to

register my concern with the  
proposed permit to NSP for  
the releasing of radioactive  
discharges into the Mississippi  
river from the Monticello  
Nuclear Plant.

Both Dr. Charles Haver

and Dr. Maurice Vischel

of the University of  
Minnesota state that  
radioactive discharges from  
this plant will raise the

Henry H. Cowie

level of radioactivity in  
the drinking water of the  
town cities higher than the  
maximum allowed by the  
World Health Organization.  
Surely it would be  
inexcusable to allow this.

IN case of an  
accident in the power  
plant it is possible to  
shut the ~~is~~ Pond  
water supply off at  
Fildes but this would  
not safeguard NPLs.  
which has no alternative  
supply.

Injurious effects from  
radioactive discharges into

Henry H. Cowie

3  
the Columbia river have  
begun to be noticed. These  
cumulative ecological  
buildups should be  
thoroughly understood before  
the Mississippi is allowed  
to become further polluted.

Thank you  
Miss Henry  
Cowie
