Mr. W. B. McCool, Secretary  
United States Atomic Energy Commission  
Washington, D. C. 20545

U.S. ATOMIC ENERGY COMM.  
MAIL & RECORDS SECTION

Dear Mr. McCool:

Pursuant to the provisions of 10 CFR - 2.714 of the Commission's "Rules of Practice", I am requesting leave to intervene in the matter of the application of the Northern States Power Company for a provisional operating license for Monticello Nuclear Generating Unit 1, Docket 50 - 263.

Your records will show that I represented Clear Air, Clear Water - Unlimited at the Atomic Safety and Licensing Board Hearing in the matter of Docket 50 - 263 on May 25 - 26, 1967, at Buffalo, Minnesota. The interest of Clear Air, Clear Water - Unlimited at that time remains in the present hearing and we wish to present significant information concerning the probable effect of this nuclear generating plant upon the environment of the region and the citizens of this area.

Clear Air, Clear Water - Unlimited is a citizens group of fifteen years existence and has a broad range of interests in the effects of contaminants on ecological systems. We intend to demonstrate the reasons why the application for a provisional operating license should be withheld, pending additional protective measures to insure that the facility can be operated without causing undue risk to the health and safety of the people residing in the area.

Please send me one copy of the facility description and summary report, the accident hazards safety analysis and all amendments for each document. In addition, please send a copy of the publications available from the Commission.

I remain

Thanking you in advance for your courtesy in this matter,

Sincerely yours,

*John Pegors*  
John Pegors, Chairman
