MAY 13 1985

Docket Nos. 50-454, 50-455,  
50-456 and 50-457

Commonwealth Edison Company  
ATTN: Mr. Dennis L. Farrar  
Director of Nuclear Licensing  
Post Office Box 767  
Chicago, Illinois 60690

Gentlemen:

We have received a copy of your application dated May 2, 1984, which was filed with the Office of Nuclear Reactor Regulation for review. This application requested a revision to the allowable out-of-service times for several components from 72 hours to 7 days for the Byron Generating Station Unit Nos. 1 and 2 and for the Braidwood Generating Station Unit Nos. 1 and 2. Fees pursuant to 10 CFR 170.22 of the March 23, 1978 regulations were not remitted with your application.

Based on information provided by the ONRR staff as the result of their preliminary review of your application, it has been determined that a Class III fee (\$4,000) is appropriate for Byron Unit No. 1 since the review will involve consideration of a single safety issue. Since a 100% power license was issued on February 14, 1985, for Byron Unit No. 1, the review for this unit is subject to the license amendment fee requirements of 10 CFR 170.22 of the March 23, 1978 regulations. The ONRR staff has informed us that review of the May 2 application for Byron Unit No. 2 and Braidwood Unit Nos. 1 and 2 will be included in the license review for those plants. Therefore, your Company is requested to remit the sum of \$4,000 to this office for the Byron Unit No. 1 review. If the ONRR staff's final review of this application reveals that this fee is not appropriate, you will be notified and any necessary adjustments will be made.

Sincerely,

Original Signed by:
