

ENCLOSURE

NOTICE OF VIOLATION

Baltimore Gas and Electric Company
Calvert Cliffs Units 1 and 2

Docket Nos. 50-317 and 50-318
License Nos. DPR-53 and DPR-69
EA 92-168

During an NRC inspection conducted between September 11 and October 3, 1992, the NRC reviewed the circumstances associated with two examples of a violation of NRC requirements which were identified by the licensee and reported to the NRC. In accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," 10 CFR Part 2, Appendix C (1992), the violation is listed below:

Technical Specification 6.12.1 states, in part, that a High Radiation Area (HRA) shall be barricaded and conspicuously posted as a HRA and entrance thereto shall be controlled by issuance of a Special or Radiation Work Permit, and any individual or group of individuals permitted to enter such areas shall be provided with a radiation monitoring device which continuously indicates the radiation dose rate in the area.

Contrary to the above,

1. on August 13, 1992, a contractor containment coordinator and three other individuals entered a posted HRA (namely, the No. 12 reactor coolant pump bay in Unit 1 containment) without a radiation monitoring device which continuously indicates the radiation dose rate in the area; and
2. on September 17, 1992, a Senior Reactor Operator (SRO) entered a locked HRA (namely, the Unit 1 volume control tank room) without a radiation monitoring device which continuously indicates the radiation dose rate in the area.

This is a Severity Level IV violation (Supplement IV).

Pursuant to the provisions of 10 CFR 2.201, Baltimore Gas and Electric Company is hereby required to submit a written statement or explanation to the U.S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, D.C. 20555 with a copy to the Regional Administrator, Region I, and a copy to the NRC Resident Inspector at Calvert Cliffs within 30 days of receipt of the letter transmitting this Notice of Violation (Notice). This reply should be clearly marked as a "Reply to a Notice of Violation" and should include: 1) the reason for the violation, or if contested, the basis for disputing the violation; 2) the corrective steps that have been taken and the results achieved; 3) corrective steps that will be taken to avoid

further violations; and, 4) the date when full compliance will be achieved. If an adequate reply is not received within the time specified in this Notice, an Order or Demand for Information may be issued to show cause why the license should not be modified, suspended or revoked, or why such other action as may be proper should not be undertaken. Where good cause is shown, consideration will be given to extending the response time.
