Brenda Mozafari, Project Manager
Operating Reactor Branch #4
Division of Licensing
U.S. Nuclear Regulatory Commission
7920 Norfolk Avenue
Bethesda, MD 20014

Subject: Crystal River Unit 3
Docket No. 50-302
Operating License No. DPR-72
Technical Specification Change Request No. 131,
Supplemental Information

Dear Ms. Mozafari:

Our initial change request identified the eight new valves as solenoid operated and placed them with the non-manual type valves of Table 3.6-1. These valves are not solenoid valves but remote-manual valves, thus, the appropriate location for these is with other manual valves of Table 3.6-1 in Section C. "Manual". Attached please find a revised page 3/4 6-21.

The new hydrogen recombiner piping and valves meet or exceed the initial design and performance requirements of the old piping and valves.

This change completely replaces our initial change requested dated February 27, 1985.

Sincerely,

G. R. Westafer
Manager, Nuclear Operations
Licensing and Fuel Management
