Mr. John F. Conway
Executive Director
Joint Committee on Atomic Energy
Congress of the United States

Dear Mr. Conway:

The Northern States Power Company, Minneapolis, Minnesota, has filed an application, dated August 1, 1966, for authorization to construct and operate a boiling water nuclear reactor on the Company's site located on the west bank of the Mississippi River, approximately three miles northwest of Monticello in Wright County, Minnesota.

The proposed reactor is designed for initial operation at 1469 thermal megawatts with a net electrical output of 472 megawatts.

Sincerely yours,

(signed) Harold L. Price

Harold L. Price
Director of Regulation
