VOGTLE ELECTRIC GENERATING PLANT - UNITS 1 AND 2
INFORMATION CONCERNING ARCHAEOLOGICAL AND HISTORICAL
RESOURCES EXEMPT FROM PUBLIC DISCLOSURE

Dear Mr. Denton:

By D. O. Foster's letter of August 3, 1984 (File X7T02.6, Log: GN-400), Georgia Power Company provided consultant's reports and Cultural Resource Management Plans (CRM) delineating historical and archaeological properties along certain transmission line rights-of-way associated with the Vogtle project. As noted in that letter, additional reports and CRM plans were being developed and would be submitted as they became available.

Enclosed are 10 copies of the Consultant's report and submittal letter to the State Historic Preservation Officer (SHPO) for the Vogtle-Effingham-Thalman Transmission line. This report has been submitted in accordance with the Tentative Resource Treatment Plan (TRTP) for this transmission line for the cultural property GP-SN-12.

This information is being provided with the understanding that it will not be subject to public disclosure. Withholding this information from public disclosure is necessary to protect these resources and insure their preservation. The basis for withholding from public disclosure were stated in D. O. Foster's letter of August 3, 1984.

Additional reports and CRM plans are being developed for submittal to the SHPO for the transmission lines associated with the Vogtle Electric Generating Plant. Such reports will be submitted to you under the same conditions noted herein as they become available.

SUBJECT: PLANT VOGTLE PROJECT

RE: CRM/VOGTLE-EFFINGHAM-THALMANN
TRANSMISSION LINE
CULTURAL PROPERTY GP-SN-12

Dr. Elizabeth A. Lyon, Chief
Historic Preservation Section
Department of Natural Resources
270 Washington Street, S. W., Room 704
Atlanta, Georgia 30334

Attention: Mr. Joe McCannon
Environmental Review Coordinator

Dear Dr. Lyon:

In accordance with the Tentative Resource Treatment Plan for cultural resources on the captioned project, resource testing-data recovery planning studies have been completed for the Designated Work Area (DWA) at cultural property GP-SN-12. A copy of the final report for these studies is enclosed.

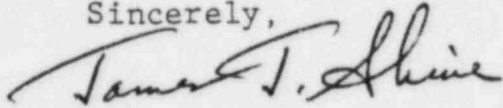

By this letter, Georgia Power Company solicits your review and comments regarding these studies. In accordance with the above-cited plan, we have released the DWA at GP-SN-12 for construction. Those portions of this property which lie outside of the DWA are still included under the terms of the Conservation Treatment Component of the above-cited plan.

Due to scheduling of resource management and construction activities on this project, we need to receive your written comments on or before June 26, 1985. Your comments should be addressed and transmitted to: James J. Shive, Senior Archaeologist, Georgia Power Company, Land Department/260-2nd, P. O. Box 4545, Atlanta, Georgia 30302.

Dr. Elizabeth A. Lyon

We appreciate this opportunity to work with you in the management of Georgia's nonrenewable cultural resources.

Sincerely,

A handwritten signature in dark ink, appearing to read "James J. Shive". The signature is fluid and cursive, with the first name "James" and last name "Shive" clearly distinguishable.

James J. Shive
Senior Archaeologist
